Frontend developer

Frontend Developer with 6+ years of experience in building, maintaining, and refactoring large-scale web applications using AngularJS, Angular, and modern JavaScript (ES6+). Experienced in migrating legacy codebases (AngularJS to Angular, Vue2 to Vue3) and collaborating with distributed teams. Currently expanding knowledge in node.js and .Net and eager to learn more about backend technologies.

SKILLS

Technical skills:

Proficient in HTML, CSS, Sass, TailwindCSS, Bootstrap, TypeScript, JavaScript, Angular, Angular Material, RxJS, Jasmin, Karma and Cypress, SignalR, WebRTC, Vue, Vuetify, Jest, RESTful APIs and asynchronous programming, GraphQL, Git.

Familiarity with UI/UX principles, React, backend technologies including C# and node.js.

Soft skills:

Exceptional communication skills, strategic problem-solving and open-minded professional

EDUCATION

- Computer Science/Master of Science (M.S.)/University Putra, Malaysia
- Software Engineering/bachelor's degree/Shomal University, Iran

PROFESSIONAL EXPERIENCE

Senior Frontend Developer (Jun 2021/Current)   **Iran Assistance(SOS Iran)/Iran**

Technical Scope: Angular +2 and Angular Material, Jasmine & Karma, Restful API, SignalR, WebRTC, GraphQL and Apollo

Responsibilities:

- Guiding and mentoring new team members in my capacity as a Senior Frontend Developer.
- Leading transformative projects and actively contributing to the onboarding and skill development of junior developers.
- Conducting meticulous code reviews and pull request evaluations, providing constructive feedback.
- Actively engaging in pair programming sessions to ensure knowledge transfer and collaborative problem-solving.

Achievements:

- Fostering a collaborative team culture through hands-on assistance and knowledge sharing in required technologies.
- Contributing to the seamless integration of new team members and accelerating their learning curve.
- Enhancing overall team productivity and cohesiveness through effective mentorship initiatives.

Frontend Developer (Oct 2018/Mar 2020)   **Mores Software/Iran**

Technical Scope: TypeScript, AngularJS, Angular 2+, Vue 2, Vue 3, Vuetify, Jest, RESTful APIs, DevExtreme

Responsibilities:

- Maintained and refactored legacy AngularJS applications, migrating them to Angular 2+ for improved performance and maintainability.
- Led the migration of Vue2 projects to Vue3 of micro-fronted applications, ensuring compatibility and better code modularity.
- Developed and maintained micro frontend architecture to enhance scalability and flexibility.
- Collaborated closely with backend and product teams in an agile environment (Scrum), using JIRA for task management.
- Conducted unit testing with Jest to ensure code quality and stability.

Achievements:

- Successfully modernized legacy codebases and reduced technical debt by over 30%.
- Created reusable UI components, reducing duplication to zero and improving team velocity.
- Improved UI performance and maintainability during framework migrations.

UI/Frontend Developer (Jan 2013/Sep 2018)   **Hamgardi/Iran**

Technical Scope: HTML, CSS, Bootstrap, JavaScript, jQuery

Responsibilities:

- Designed and coded responsive, mobile-friendly websites using established techniques in HTML5, CSS3, and JavaScript.
- Developed landing pages and email marketing pages, ensuring a seamless user experience.
- Checked Cross Browser Compatibility of various elements, working across different browsers.

Achievements:

- Created accessible, responsive, and functional user interfaces in an agile environment, providing a positive experience for visitors on any device.
- Optimized images, streamlined HTML, and minified CSS and JavaScript, resulting in improved page load times following Google core web vitals.

UI Developer/Web designer (Aug 2009/Dec 2012)   **Atinegar/Iran**

Technical Scope: HTML, CSS, jQuery, Photoshop

Responsibilities:

- Designed and maintained both corporate and client websites, focusing on aesthetic and functional excellence.
- Collaborated closely with programmers and clients to meet project goals and desired functionality.
- Conducted training sessions for clients on handling website content management systems.

Achievements:

- Maximized group performance and maintained high client satisfaction through effective website design and maintenance.
